

## **About Kimberly Shore Levin** **“The Connoisseur of Everything Baby”**

As a mom of 3 children, born over the last 3 1/2 years, I have spent countless hours in practically every baby store in the Washington area. I recall being 5 1/2 months pregnant with my first and standing in the parking lot of a large baby store feeling stressed out by how much there was to buy and do. Add to that working full time and then having to go on bedrest — I was at my wits end!

This is where Nursery-Know-It-All comes in. We are here to do the research for you. We will help you sort through all of the fantastic and not-so-fantastic baby gear out there and keep you focused on your needs. We're also available to answer questions and give you personalized, customized service.

Our goal is to help you find the best products that meet your budget — and satisfy your lifestyle.

### **My Background**

I have worked for the past 11 years as a speech language pathologist at George Washington University Hospital and the National Rehabilitation Hospital. I graduated from James Madison University and have a Masters Degree in Speech Language Pathology from the University of North Carolina at Chapel Hill. I live in Bethesda with my husband and three children (ages 4 1/2, 3, and 1).
